Community Extension Program

COMMUNITY EXTENSION PROGRAM

Project: "Milk Feeding Program for Children in Adopted Barangay"
Introduction

The purpose of the Milk Feeding Program is to meet the children's nutritional needs in then adopted barangay. Through this initiative, we intend to provide regular access to milk, a vital source of essential nutrients, to children in the community.

Objectives

- · To improve the nutritional status of children in the adopted barangay.
- To promote healthy growth and development among children through regular milk consumption.
- To raise awareness about the importance of proper nutrition and its impact on child development within the community.
- To initiate advocacy campaigns towards attainment of sustainable development goals especially for no poverty, zero hunger, good health well-being and gender equality. (based on Rotterdam Declaration, FAO).

Milk Feeding Program Orientation

With 20 target beneficiaries with their parents held at the University of the Visayas.
